I will get the guys to empty the drums and haul it with the stockpiled soil and debris.

I also thought he would. The drums resulted from #601's spill/leak/release cleanup activities (Class I Waste) and can be included with the disposal of the stockpiled waste soil media. Greg will be on site tomorrow and I will discuss the issue with him this afternoon.

The utility company is conducting repairs in my area and I have been informed that my phones, internet & electricity will be interrupted soon and will not be restored until after 5:00pm today.

Mickey
I thought Greg was going to include the drums in the box that got disposed of?
